There is more Catarrh. In this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 16 drops to a tenspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials, Address.

orner of the drawing room. That evening Albert came back from the office in a perturbed state of mind. I watched him on his knees in the hall looking for something, and when he saw me he pretended to be unlacing his shoes. He wandered from room to room and was subsequently heard flinging his things about in his bedroom. He said not a word about his loss, however, to any one. Next morning I was surprised to see him bright and cheerful. I went into the drawing room, and behold! the glove was gone. From the way the unsus pecting Albert was incessantly putting his hand into that inside pocket I saw that there was once a 51/2 glove in it. had feared that Albert would treasure somewhere else now; but no, he evidently thought that he had dropped it in the drawing room accidentally-perhaps after passionately gazing on it in secret.

But the awakening came when I concealed the little glove in a vase on the smoking room mantelpiece. Albert ran it to earth in a day and a half without saying a word on the subject to any body, unless possibly the houseman When next I felt for it in his pocket, was not there. From that time Alber and I were playing at hide and seel When I was not looking for the glove, he was. I found it inside the case of his cricket but and dropped it behind the piano. Albert searched it out, and soon afterward I got it under a corne carpet in his bedroom. Then I hid it among some music, knowing that Albert would look there last. All this time did not know if he suspected who it was that was playing with him. I do not know now, for we have never opened our

minds on the subject, Albert did not find the glove among the music. When two days had passed, I put it in an easier place, for Albert was bearing his disappointment bravely. Still he did not find it. Next I flung it on the floor of his bedroom, and Albert did not eem to see it. I laid it on his mantelpiece, and he let it remain there. LIFE

That's the way the COLUMBIA BEVEL-GEAR CHAINLESS BICYCLE moves. From pedal to driving wheel there is no interruption in the transmission of power. The operation of the machine is positive. Each part of the driving mechanism is fixed in its place, all parts move together and there is no back-lash, no straining, wear or loss of power in bringing the different parts consecutively into action.

The rider expends no strength without compensation. Every ounce of muscular force exerted is

utilized in the propulsion of the machine. Price \$60 to \$75. CHAIN WHEELS

COLUMBIAS and HARTFORDS are the most popular chain bicycles because they contain more desirable features than can be found in other machines of their kind. Special cutting of the sprockets, preventing loss of power through the sliding of the chain; narrow tread; narrow rear forks and hubs; dropped crank hanger; flush joints, which are stronger than the body of any tube adapted to cycle construction; and bearings brought to the highest degree of perfection through generation in machines designed and built for our exclusive use, are evidences of their superiority. Price \$35 to \$50.

Vedette Bicycles are strong and reliable. Price \$25 and \$26.
